**MEDIA ADVISORY  
FOR IMMEDIATE RELEASE**

## **Clark Logic Expands Footprint in Fort Custer Industrial Park with 123,544 SF Acquisition**

**BATTLE CREEK, Mich.**— Clark Logic has announced the acquisition of an industrial property located at 166 McQuiston Drive, Battle Creek, Michigan. The transaction closed on December 31, 2025.

Situated within Fort Custer Industrial Park, the property encompasses more than 17 acres and includes an existing 123,544-square-foot manufacturing facility formerly owned and operated by Yorozu Automotive North America.

Classified as manufacturing/light industrial, the facility offers a strategic location near major transportation corridors, positioning it well for a range of uses that support regional economic growth.

“We are pleased to expand our presence in the Battle Creek market with this acquisition,” said Jamie Clark, President and Owner of Clark Logic. “With more than 123,000 square feet of existing industrial space, this site offers exceptional flexibility and future opportunity for redevelopment that aligns with both local needs and broader market trends.”

With this purchase, Clark Logic has now amassed more than 1 million square feet of industrial property across the Battle Creek and Springfield area, including over 950,000 square feet located within the Fort Custer Industrial Park and Fort Custer Industrial Park Expansion Area.

Among Clark Logic’s current projects in the expansion area is a 252,000-square-foot addition that will increase the size of its warehouse and industrial facility at 201 Watkins Road, located off I-94 (Exit 92), to a total of 504,000 square feet.

Fort Custer Industrial Park is recognized as one of the premier international business parks in the Midwest and North America, home to more than 80 companies, including 25 international businesses, and employing over 13,000 people.

Clark Logic is a full-service industrial services provider specializing in real estate development, warehousing, third-party logistics, and transportation. Additional services include all-seasons property maintenance, cardboard and paper recycling, semi-trailer and equipment sales and rentals, heavy machinery moving, and Dunnage washing.

With over 7 million square feet of space across Michigan and Indiana, Clark Logic provides scalable leasing options—from a single pallet to more than 600,000 square feet.
