

NEW PROGRAM

# MARINE MAINTENANCE TECHNICIAN

The Marine Maintenance Technician program at LMC prepares you to earn your lifetime Mercury Marine Technician number and sit for the American Boat & Yacht Council Marine Service Technology Exam.

Developed in collaboration with the American Boat and Yacht Council, the Michigan Boating Industries Association, and local marinas, our program will prepare you for a job as a Marine Maintenance Technician in just seven weeks.

Skilled Marine Technicians are in demand year-round. This short-term training program provides you with the tools to become a skilled inboard and outboard engine tech and earn multiple certifications, including OSHA 10, American Heart Association First Aid, and CPR/AED, while learning the ropes in a marine-industry-recognized program.

The program is all online except for one day of First Aid CPR/AED and seven days where students will travel to Macomb Community College to participate in their state-of-the-art marine facility.

Upon completion of the program requirements, you will be eligible to take the American Boat & Yacht Council Marine Service Technology Exam.
