

## **Omega Computer Services Recognized as a Top Managed Service Provider in 2025 CRN® MSP 500 List**

*Kalamazoo, MI* — Omega Computer Services, a leading managed IT services provider, is proud to announce its inclusion in the prestigious Pioneer 250 category of CRN®'s annual MSP 500 list for 2025. This recognition highlights Omega's position among North America's top solution providers delivering innovative managed services to businesses across various industries.

The Pioneer 250 category honors companies making a significant impact in the IT channel with exceptional services, cutting-edge solutions, and dedicated client support. For Omega, this distinction reflects its commitment to providing businesses with reliable IT support, security, and network management, allowing clients to focus on growth without the worry of technical challenges.

"We're thrilled to be recognized by CRN – it's a great reflection of the hard work our team puts in every day to make IT a lot less stressful for our clients," said Ron Harris, VP of Omega Computer Services. "Our goal is simple: give our clients the tools they need to succeed, and keep them focused on growing their business, not worrying about tech headaches. This recognition is just icing on the cake!"

Omega Computer Services offers a comprehensive suite of services, including network management, cloud solutions, VOIP, service desk support, and consulting. The company's customer-centric approach emphasizes cybersecurity, which has become a central part of its offerings. By integrating security into its all-you-can-eat (AYCE) plan, Omega removes the need for upselling and provides a holistic, well-rounded solution for its clients.

Moving forward, Omega plans to enhance its services by integrating tools for improved reporting and trend identification, providing even deeper insights into clients' IT environments.
